To celebrate our 50th anniversary, every month starting from January 2021 one surprise product offered 50% off!

Do not miss the chance!

APRIL

COMPACTGRIP VISE SERIES

Scan the code and
discover more

Designed for 5 axis machines, CompactGRIP series of vises allow machining operations on the 5 workpieces sides with perfect alignment in a space saving design, extremely high wear resistance, with reduced deflection.

Technical Features & Advantages:

- No Wear HRC 58 $\pm$ 2
- Quick clamping operation
- Modularity & Versatility
- Rigidity & safety thanks to the solid jaws
- Space saving design & handy
- Highest accuracies $\pm$ 0,02 mm
- Direct vise set-up or through vise clamps
- Solid and rigid construction and maximum clamping ratio to the total length
- Self-centering vise for clamping parts on outside or inside (by reversing jaw plates)
- Double sided top jaw inserts with full work piece contact on one side and partial on the other
- Front through holes for customized applications (plates, points, etc..)

COMPATIBILITY

Max compatibility with the most popular pallet change systems.

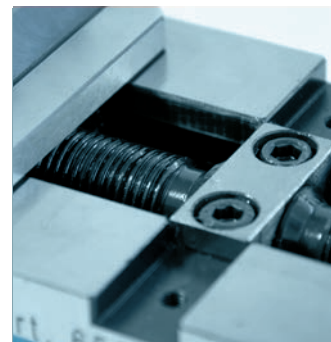

RISERS

By the Compact risers it's possible machining areas usually hard to reach.

VERSATILITY

Versatility also thanks to the reversible jaws and to the 4 base positions option (90°)

CLAMPING POWER

Much higher clamping power than the existing vises thanks to the clamping screw design
